Dear Ms. [REDACTED],

On behalf of the Master of Engineering Committee, I am pleased to recommend your admission to the Engineering Division of the Graduate School for the Fall 2012 term as a candidate for the Master of Engineering degree in Systems Engineering, on campus program.

Decisions on financial aid will be made by the end of February. We have a limited amount of financial aid that will be awarded based on merit. If you are selected as a recipient of financial aid, we will notify you by letter in early March. Please note that no one in the M.Eng. program receives full aid. Therefore, you should begin an early search for other possible sources of funding if you have not already done so. For planning purposes, it is expected that your M.Eng. Program will take two semesters to complete (Academic year 2012-2013).

Information about life at Cornell and the Guide to Graduate Housing is available online at
• http://www.gradschool.cornell.edu/pubs_and_forms/pubs/youbelong/youbelong2012_spread.pdf and
• http://www.gradschool.cornell.edu/pubs_and_forms/pubs/youbelong/housingguide2012.pdf.

If you cannot access this information, please contact Selene Cammer, the Graduate Field Assistant (smc355@cornell.edu). This information will introduce you to the university and some of the graduate students who have chosen to study at Cornell. More information is mailed once you have accepted our offer of admission. **You must accept or deny our offer by replying to Selene Cammer (smc355@cornell.edu), the GFA for Systems Engineering in order to be matriculated into the program and expedite future mailings from the Graduate School and the Systems Engineering Program at Cornell. Please respond to this offer of admission no later than March 15th, 2012.** You will then receive official notification about the required financial certification. Once the certification papers have been processed, a Certificate of Eligibility (Form I-20) for graduate study will be issued. Please note that by accepting our offer of admission, you are acknowledging that you will adhere to Cornell University's Code of Academic Integrity.

We are pleased that you have chosen to apply to Cornell for graduate study, and we look forward to the possibility of having you join us. We take a deep interest in our Master of Engineering students and strive to give them the best education we can. If you have any questions, please do not hesitate to either call us at 607-254-8998 or send an email to systemseng@cornell.edu.

Sincerely,

Peter L. Jackson
Director of Graduate Studies
